

# Collis - Curve™

## The Unique Collis Curve Logo Toothbrush

### SOLVES THE PROBLEMS OF:

*Damage to teeth and gums by over brushing  
Anxiety over intrusion into the mouth  
Excessive formation of plaque  
Bleeding gums and gum disease  
Small jaws and difficulty opening the mouth  
Complicated brushing techniques  
Special needs and disability care  
Having to brush another person's teeth*

### BY

*Massaging the gums effectively to promote good circulation  
Removing plaque from beneath the gum line  
Feeling 'neater' in the mouth  
Using simple backwards and forwards brushing*

### IN TRIALS

*It removed up to 40% more plaque than any manual brush and  
at the same time improved gingival health by up to 68% in  
comparison*

**NEW**

The Collis Curve Foam Gripper solves all kinds of problems associated with manual dexterity. For people suffering with arthritis or any other ailment that makes holding a brush difficult. Just insert the Collis Curve gently and firmly into the central hole of the Gripper to provide a wide and comfortable handle.

### BRUSH STYLES
